Same. Only different. A single element becomes multi-faceted when treated in an entirely different way. Case in point: Omega's Pearl is the perfect backdrop for an exclusive look at the tone and texture of walnut. Both on the same door style, rendering a total transformation.

---

RUSTIC  
LUXE.

AND NATURALLY ELEGANT.

---

*style* DELRAY  
*specie* CHERRY  
*finish* SAGE

Clean lines unite with rich, natural materials in a space that reads luxurious, while truly welcoming you home. Texture abounds in decorative elements, adding a lovely contrast to smooth wood and warm finish. This is a room where door style becomes almost secondary, downplayed a bit so that the sum of the parts doesn't overwhelm the senses.

Elements of design add to the elegance of a room. Glass doors and banks of drawers pair with built-in seating that impart the hand-crafted artisanship of Omega.

# BUILDING A PASSION FOR WHAT WE DO.

---

## 1. IN THE BEGINNING.

We start with raw wood. Lumber—in board feet and a variety of species—right off the truck and into our Rough Mill. This is where your cabinetry begins. Meticulously sorted, expertly milled and then hand-crafted into a work of art.

## 2. THE BEST TOOLS OF THE TRADE.

Selecting the best tool for a task doesn't always mean choosing high technology. At Omega, we match device to assignment, knowing that often, time-honored methods are best.

## 3. OUR PEOPLE ARE OUR GREATEST ASSET.

Skill and sensibility is what makes our product great. The human touch that goes into every piece with precision and thoughtfulness is non-negotiable.

## 4. FURNITURE QUALITY AS STANDARD.

We build cabinetry on the order of fine furniture. Expect dovetailed joints on drawers, drawer glides that move quickly and smoothly, and gently close with a push of a fingertip.

## 5. CARE AND CRAFTSMANSHIP, IT'S OUR BOTTOM LINE.

Painstaking care with an eye for detail, it's evident in everything we do. We value the folks that build our products, and you'll appreciate the conscious effort applied to every project.

QUALITY MEANS
